

## LSHTM Policy on Contact with the Tobacco Industry

The London School of Hygiene and Tropical Medicine has a long history of undertaking research to underpin comprehensive tobacco control policies in the UK and internationally. LSHTM will not accept money from the tobacco industry or foundations such as the Phillip Morris funded “Foundation for a Smoke Free World” and any other funds associated with it.

LSHTM Staff should turn down any offers of funding from such entities.

Professor Baron Peter Piot  
Director  
February 2018
