	them to understand and interpret current influences on public health globally. The module covers key frameworks that are used to address public health challenges.
Duration	Studies for distance learning modules begin in early October. At this time, module materials will be made available on Moodle and the module textbook will be made available in either e-format or hard copy, once fees have been paid. Students may start their studies at any time from the beginning of October and work through the material until the start of the June examinations. Students must adhere to other earlier assessment submission deadlines.
Last Revised (e.g. year changes approved)	05/2020

Programme(s)	Status
This module is linked to the following programme(s)	
MSc Public Health (General stream) (Distance Learning - University of London Worldwide)	Compulsory
MSc Public Health: Environment and Health (Distance Learning - University of London Worldwide)	Recommended

Module Aim and Intended Learning Outcomes

Overall aim of the module
The overall module aim is to: <ul style="list-style-type: none"> answer the question “What is public health?” and introduce the main concepts, principles, and practises of public health.

Module Intended Learning Outcomes
Upon successful completion of the module a student will be able to: <ol style="list-style-type: none"> 1. Explain the philosophy underpinning public health action, how it has evolved and how to apply it to health policies. 2. Interpret and evaluate work that applies key public health approaches, including describing patterns of health in populations, assessing disease burden, and assessing health impacts of policies in other sectors. 3. Apply specific knowledge to global and influential issues in public health, like tobacco use, obesity, climate change, conflicts and the changing nature of infectious diseases. 4. Explain health inequities and their origins as well as apply measures to reduce them. 5. Communicate to others the major threats to health and their distribution within populations, using examples from high, middle and low-income countries.

Indicative Syllabus

Session Content

The module is expected to cover the following topics:

- Basic understanding of the history and evolution of public health;
- Approaches to measure health in populations (e.g. summary measures of public health, mortality data);
- An overview of issues threatening public health today, with examples from low, middle and high income countries;
- The relationship between individual and societal responses to public health, illustrated across several topic areas;
- Understanding of the causes of health inequities and the potential pathways to reducing them.

Teaching and Learning

Notional Learning Hours

Type of Learning Time	Number of Hours	Expressed as Percentage (%)
Directed self-study	70	70
Self-directed learning	0	0
Assessment, review and revision	30	30
Total	100	100

Teaching and Learning Strategy

Learning is via directed self-study. A guide to studying the module is provided, together with access to a range of study resources, discussion forums and collaborate sessions. The textbook that supports this module provides a detailed set of learning objectives at the start of each chapter, and also offers focused reading and various learning activities. Students are strongly encouraged to participate in the module-specific discussions and collaborate sessions to obtain tutor support, and to make use of the LSHTM on-line library resources. Tutors provide written feedback for all students through the online discussion forum and offer individual feedback on a formative (non-assessed) assignment submitted by the student. Written feedback is provided on submitted assignments.

Assessment

Assessment Strategy

A formative assessment is offered to encourage students to test their new knowledge and receive individual feedback. The formative assessment is optional and will not count towards a student's final grade.

The summative assessment of this module is by a two hour-15 minute written examination (100%). Students are advised to spend the first 15 minutes reading the paper and planning responses.

Summative assessment

Assessment Type	Assessment Length	Weighting (%)	Intended Module Learning Outcomes Tested
Exam	2-hour 15 minute	100	All

Unseen written examinations for DL modules are held once a year, in June (including resits). Examinations are normally taken in a student's country of residence, in one of over 650 examination centres worldwide (arranged mainly through Ministries of Education or the British Council). A list of examination centres can be found at <https://london.ac.uk/current-students/examinations/examination-centres>.

A local fee will be payable direct to the examination centre. This fee is in addition to the programme/module fee and is set by, and paid directly to, the individual examination centres. The level of local examination centre fees varies across the world and neither the University of London nor the LSHTM have any control over the fee amount.

Resitting assessment

Resits will accord with the LSHTM's [Resits Policy](#).

The Resit assessment will be the same assessment type as the first attempt (see previous table).

Resources

The following materials are provided to students after registration and fee payment for this module in September/October:

- A brief guide to studying the module;
- The textbook *Issues in Public Health* (second edition) edited by Fiona Sim and Martin McKee;
- A reading list, including details of both required and optional reading and links to selected papers;
- A list of useful websites;
- Module-specific discussion forums;
- Collaborate tutorial sessions to be run during the year at key points in the module;
- The LSHTM online library resources.

Please note the textbook will be made available in e-format or hard copy. All other materials may be accessed via the LSHTM VLE – Moodle.

Teaching for Disabilities and Learning Differences

The module-specific site on Moodle provides students with access to the majority of the module learning materials, including a study guide and online reading list (detailing both essential and recommended readings), and additional resources including supplementary exercises and optional lecture recordings. In some cases, module materials include a text book that is made available to students in either hard copy or e-format. All materials posted up on Moodle areas, including computer-based sessions, have been made accessible where possible. The LSHTM Moodle has been made accessible to the widest possible audience, using a VLE that allows for up to 300% zoom, permits navigation via keyboard and use of speech recognition software, and that allows listening through a screen reader. Please contact the University of London through the “Ask a question” resource on the Student Portal if you require any documents in an alternative format.
