MODULE SPECIFICATION

Academic Year (student cohort covered by specification)	2020-21
Module Code	GHM104
Module Title	Issues in Global Health Policy
Module Organiser(s)	Ana B. Amaya
Faculty	Public Health & Policy: London School of Hygiene & Tropical Medicine http://www.lshtm.ac.uk/php/
FHEQ Level	Level 7
Credit Value	CATS 15 ECTS 7.5
HECoS Code	100648
Mode of Delivery	Distance Learning
Mode of Study	Directed self-study, through online materials via the Virtual Learning Environment
Language of Study	English
Pre-Requisites	No specific pre-requisites although we recommend students take at least two GHM1 modules before registering for GHM104.
Accreditation by Professional Statutory and Regulatory Body	None
Module Cap (Maximum number of students)	None
Target Audience	This module is compulsory for the PGCert/PGDip/MSc Global Health Policy by Distance Learning, and can also be taken as a standalone module. This module will be of interest to students intending to research or work in health policy-making with a global or international focus.
Module Description	<p>This module serves to introduce and integrate key concepts, theories, methods and topics to further understanding of major issues in global health. The module will begin by covering how global health policy can be defined, including ways to conceptualise and develop collective action to address global health issues.</p> <p>The module primarily focuses on issues that impact middle- and low-income countries, although some of the sessions</p>

	also discuss issues relevant to high-income countries. Finally, the module seeks to integrate learning from GHM101, GHM102, and GHM103 through a selection of key topics in global health policy.
Duration	Moodle is open to access from 1 st October each year. Students then plan their own studies between October and June. Examinations are held in the first three weeks of June.
Last Revised (e.g. year changes approved)	March 2020

Programme(s)	Status
This module is linked to the following programme(s)	
PGCert/PGDip/MSc Global Health Policy (Distance Learning - University of London Worldwide)	Compulsory

Module Aim and Intended Learning Outcomes

Overall aim of the module
The overall module aim is to: <ul style="list-style-type: none"> enhance student understanding of global health policy through the application of concepts, theories and methods to key global health issues.

Module Intended Learning Outcomes
Upon successful completion of the module a student will be able to: <ol style="list-style-type: none"> define global health policy, using specific examples, and the specific challenges of making public policy in a global context; discuss concepts and theories that describe how global health policy occurs; apply these concepts and theories to analyse selected global health issues; assess how to facilitate collective action to develop global health policy.

Indicative Syllabus

Session Content
The module is expected to cover the following topics: <ul style="list-style-type: none"> Introduction; The Global Risk from Pandemic Influenza; The Political Economy of the Global AIDS Response; Global Strategies for Tackling Chronic Diseases;

Session Content

- Access to Pharmaceuticals in a Globalised World;
- Global Health Impacts of Illicit Activities;
- Population Mobility and Global Health;
- Environmental Change and Emerging Infections;
- Global Dimensions of Sexual and Reproductive Health;
- Horizontal and Vertical Approaches to Global Health;
- The Emergence of New Aid Donors for Global Health Development;
- Global Dimensions of Mental Health;
- Health Equity in a Globalising World?
- Conclusions.

Teaching and Learning

Notional Learning Hours

Type of Learning Time	Number of Hours	Expressed as Percentage (%)
Directed self-study	84	56
Self-directed learning	16	11
Assessment, review and revision	50	33
Total	150	100

Teaching and Learning Strategy

Learning is self-directed against a detailed set of learning objectives using the materials provided. Module tutors provide asynchronous support for students by replying to students' questions in open online discussion forums and facilitating discussion. Students are also strongly encouraged to participate in live webinars available on Moodle to obtain tutor support, and to make use of LSHTM online library resources. In addition, written feedback is provided on submitted formative assignments.

Assessment

Assessment Strategy

Formal assessment of this module includes a two-hour unseen written examination (70%) and an assessed assignment (30%).

The unseen written examination represents a higher percentage of the grade given that it requires the student apply the knowledge gained throughout the module by answering exam questions in essay form based on the module intended learning outcomes. The assessed assignment specifically seeks to address intended learning outcome 3 (apply these concepts and theories to analyse selected global health issues). In the assessed assignment, students will develop policy advice on an issue covered in the module and will receive written feedback on their work.

If students fail the module overall, they are allowed one further attempt at the failed element (examination and/or assignment).

Summative Assessment

Assessment Type	Assessment Length (i.e. Word Count, Length of presentation in minutes)	Weighting (%)	Intended Module Learning Outcomes Tested
Assessed Assignment	1,500 words	30	3
Exam	2 hours	70	1-4

Assessed assignments for this module can be submitted only once annually, no later than 31 March and must be submitted via the online Assignment Management System.

Unseen written examinations for DL modules are held once a year, in June (including resits). Examinations are normally taken in a student's country of residence, in one of over 650 examination centres worldwide (arranged mainly through Ministries of Education or the British Council). A list of examination centres can be found at:

<https://london.ac.uk/current-students/examinations/examination-centres>

A local fee will be payable direct to the examination centre. This fee is in addition to the programme/module fee and is set by, and paid directly to, the individual examination centres. The level of local examination centre fees varies across the world and neither the University of London nor the LSHTM have any control over the fee amount.

Resitting assessment

Resits will accord with the LSHTM's [Resits Policy](#)

Teaching for Disabilities and Learning Differences

The LSHTM Moodle has been made accessible to the widest possible audience, using a VLE that allows for up to 300% zoom, permits navigation via keyboard and use of speech recognition software, and that allows listening through a screen reader.

For students with special needs, reasonable adjustments and support can be arranged – details and how to request support can be found on the University of London Worldwide website at <https://london.ac.uk/applications/how-it-works/inclusive-practice-access-arrangements>
