RECRUITMENT

Recruitment has been going steadily and February saw us recruit 150 participants. We are almost halfway to our interim analysis target of 3865 participants.

OVERDUE FORMS

We recently sent out the first round of reports for overdue forms. It is vital we keep on top of data entry in preparation for the interim analysis. We will be sending overdue query reports out every month, so please work through the list of forms in a timely manner. If you have any questions, please contact the data team.
