

MODULE SPECIFICATION

Academic Year (student cohort covered by specification)	2022-23
Module Code	PHM213
Module Title	Principles and Practice of Health Promotion
Module Organiser(s)	Annik Sorhaindo
Contact email	<p>The LSHTM distance learning programmes and modules are run in collaboration with the University of London. Enquiries may be made via their Student Advice Centre.</p> <p>(Enquiries from face-to-face i.e. London-based the LSHTM MSc or research students regarding study of DL modules should be emailed to: distance@lshtm.ac.uk).</p>
Faculty	Public Health & Policy: The London School of Hygiene & Tropical Medicine https://www.lshtm.ac.uk/research/faculties/php
FHEQ Level	Level 7
Credit Value	CATS: 15 ECTS: 7.5
HECoS Code	101317: 101307
Mode of Delivery	Distance Learning
Mode of Study	Directed self-study, through online materials (Virtual Learning Environment)
Language of Study	English
Pre-Requisites	This module builds on concepts introduced in the core module PHM107 Foundations for Health Promotion; therefore, students are strongly advised to complete PHM107 prior to studying this module. Please note that while PHM107 is not a mandatory prerequisite, it is recommended that students who have not studied PHM107 have read the core textbook for PHM107 and have worked through the activities.
Accreditation by Professional Statutory and Regulatory Body	None
Module Cap (Maximum number of students)	None
Target Audience	This module is available to students registered for the DL MSc and PGDip in Public Health. It is recommended for students

	studying the MSc in Public Health: Environment & Health and General streams and compulsory for: Health Promotion stream. The module is also open to students on the DL PGDip/MSc Clinical Trials, Epidemiology, Global Health Policy and Infectious Diseases programmes. Alternatively, it can also be taken as an individual module.
Module Description	This module provides students with advanced concepts and tools in the practice of health promotion to help them understand the multi-levelled and complex determinants of health, strategies and interventions that can be undertaken at the global, community, or individual levels to address individual behaviour, social norms, rights and responsibilities, political, economic and environmental factors to improve health.
Duration	Studies for distance learning modules begin in early October. At this time, module materials will be made available on Moodle once fees have been paid. Students are encouraged to commence their studies in October and work steadily through the materials over the course of the academic year and must adhere to other assessment submission deadlines.
Last Revised (e.g. year changes approved)	March 2022

Programme(s)	Status
This module is linked to the following programme(s)	
MSc Public Health: Health Promotion (Distance Learning - University of London Worldwide)	Compulsory
MSc Public Health (General stream) (Distance Learning - University of London Worldwide)	Recommended Elective
MSc Public Health: Environment and Health (Distance Learning - University of London Worldwide)	Recommended Elective
MSc Public Health: Health Services Management (Distance Learning - University of London Worldwide)	Elective
MSc Public Health: Health Economics (Distance Learning - University of London Worldwide)	Elective
PGDip Public Health (Distance Learning - University of London Worldwide)	Elective
PGDip/MSc Clinical Trials (Distance Learning - University of London Worldwide)	Elective
PGDip/MSc Epidemiology (Distance Learning - University of London Worldwide)	Elective
PGDip/MSc Global Health Policy (Distance Learning - University of London Worldwide)	Elective

Programme(s) This module is linked to the following programme(s)	Status
PGDip/MSc Infectious Diseases (Distance Learning - University of London Worldwide)	Elective

Module Aim and Intended Learning Outcomes

Overall aim of the module
The overall module aim is to: <ul style="list-style-type: none"> enable students to apply various theories and evidence-based methods to support individual and groups engaged in health promotion.

Module Intended Learning Outcomes
Upon successful completion of the module a student will be able to: <ol style="list-style-type: none"> Describe and give example of various health promotion methods and the contexts in which they might be applied; Explain the application of different health promotion methods when targeting whole populations, communities or individuals; Critically assess how multi-method programmes of health promotion are developed; Identify and give examples of key stages in planning and implementing health promotion interventions, including their evaluation; Critically analyse contemporary debates in health promotion practice, including knowledge of 'real world' health promotion interventions.

Indicative Syllabus

Session Content
The module is expected to cover the following topics: <ul style="list-style-type: none"> Planning and delivering health promotion; Policy and advocacy; Settings and communities for health; Using media to promote health; Peer education; Therapeutic change; Information and advice.

Teaching and Learning

Notional Learning Hours

Type of Learning Time	Number of Hours	Expressed as Percentage (%)
Directed self-study	110	73.3
Self-directed learning	0	0
Assessment, review and revision	40	26.7

Type of Learning Time	Number of Hours	Expressed as Percentage (%)
Total	150	100

Teaching and Learning Strategy

Learning is via directed self-study. A guide to studying the module is provided, together with access to a range of study resources, discussion forums and online webinar discussion sessions. The textbook that supports this module provides a detailed set of learning objectives at the start of each chapter, and also offers focused reading and various learning activities. Students are strongly encouraged to participate in the module-specific discussions and online webinar discussion sessions to obtain tutor support, and to make use of the LSHTM on-line library resources. Written feedback is provided on submitted assignments.

It is a requirement of this module that students participate in the module-specific discussions and real-time tutorials available on Moodle to obtain tutor support, and to make use of the LSHTM online library resources.

Assessment

Assessment Strategy

For students registering for the first time in 2022/2023

This module is assessed via an assessed assignment (100%) to be submitted no later than May 31st.

For students who first registered for the module prior to 2022/2023

Prior to 2022/23 students were required to complete an assignment (30%) and sit an unseen written examination (70%). If you are a continuing student (i.e. registered for the module for the first time prior to 2022/23) the module will be assessed as follows:

- If you have completed either the assignment or the exam, you will need to complete the remaining element of the summative assessment.
- If you have not completed either the assignment or the exam you may either continue with the assessment strategy in place prior to this academic year (i.e. assignment- 30% and exam - 70%) **OR** complete the assessment strategy in place for students registering for the first time in 2022/23 i.e. 100% assignment.

For students registered before 2022/23, who are continuing with the assessment strategy in place when they first registered (i.e. an assignment and exam) the last opportunity to complete either component of the assessment strategy will be the 2023/24 academic year.

Summative assessment New for 2022/23.

Note: students who first registered for this module prior to 2022/23 may have the option to continue with the format in place when they first registered for the module. Please read preceding section – 'Assessment Strategy'.

Assessment Type	Assessment Length	Weighting (%)	Intended Module Learning Outcomes Tested
Assessed Assignment	Please see the Assignment Instructions for details.	100	All

For students registering for PHM213 for first time in 2022/23

The 100% assessed assignments for this module can be submitted only once annually - no later than May 31st - and must be submitted via the online Assignment Management System.

For students who first registered for the PHM213 module prior to 2022/23 (and who are continuing with the assessment format in place when they first registered) The assignment should be submitted no later than 31 March and the exam will take place in June. Note: timed examinations for DL modules are held once a year, in June (including resits). Examinations in 2022/23 will either be taken in a student's country of residence in one of over 650 examination centres worldwide or will be held online. If the June 2023 module exam is held at a local examination centre, a local fee will be payable direct to the exam centre. This fee will be in addition to the module fee and is set by, and paid directly to, the individual examination centre. The level of local examination centre fees varies across the world and neither the University of London nor the LSHTM have any control over the fee amount. If the June 2023 module exam is held online, no additional exam entry fee will be payable.

Resitting assessment

Resits will accord with the LSHTM's [Resits Policy](#).

Resources

The following materials are provided to students after registration and fee payment for this module in October:

- A brief guide to studying the module;
- The main textbook *Health Promotion Practice* (second edition) by Will Nutland and Liza Cragg;
- A reading list including details of both required and optional reading and links to selected papers;
- A list of useful websites;
- Access to the LSHTM Virtual Learning Environment (VLE) - Moodle, where students can access a range of materials, including the materials listed above; participate in module-specific discussion forums and online webinar sessions and access the LSHTM online library resources.

All materials are provided in e-format and may be accessed via the LSHTM VLE – Moodle.

Teaching for Disabilities and Learning Differences

The module-specific site on Moodle provides students with access to the majority of the module learning materials, including a study guide and online reading list (detailing both essential and recommended readings), and additional resources including supplementary exercises and optional lecture recordings. In some cases, module materials include a text book that is made available to students in e-format. All materials posted up on Moodle areas, including computer-based sessions, have been made accessible where possible. The LSHTM Moodle has been made accessible to the widest possible audience, using a VLE that allows for up to 300% zoom, permits navigation via keyboard and use of speech recognition software, and that allows listening through a screen reader. All students have access to "[SensusAccess](#)" software which allows conversion of files into alternative formats.

For students with special needs, reasonable adjustments and support can be arranged – details and how to request support can be found on the University of London Worldwide website at <https://london.ac.uk/applications/how-it-works/inclusive-practice-access-arrangements>
