August 2022, Issue 08

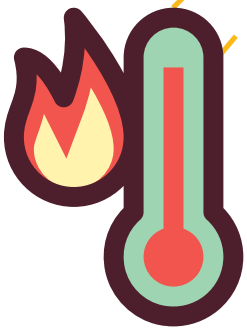

78

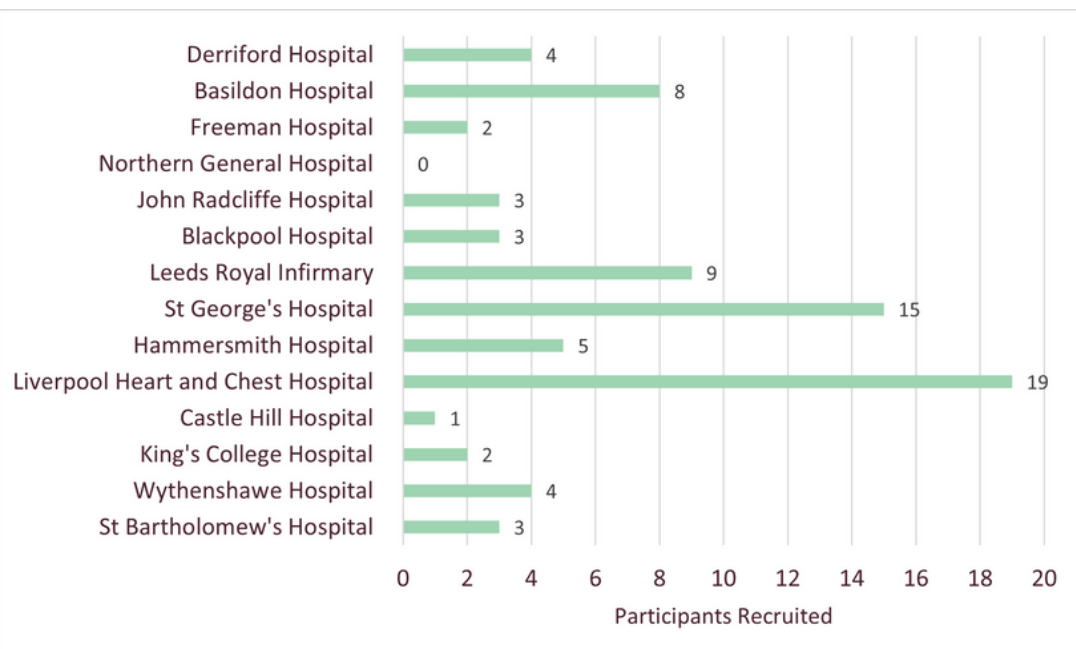

PARTICIPANTS RECRUITED IN JULY

July was a month for record breaking. The heat wave last month resulted in the highest temperatures ever recorded. More importantly for us, our phenomenal Tight K sites recruited 78 participants in July, 20 more participants than we recruited in June! That is simply outstanding - a huge congratulations to all our sites.

570
PARTICIPANTS
IN TOTAL

A special shout out to **Liverpool Hospital** for being our highest recruiting site in July **AND** for being the first site to recruit 100 participants!

Distribution of participants recruited across sites in July 2022

♥ TIGHT K MEETING ♥

Our first Tight K nurses meeting was held on 8 July 2022. We really enjoyed meeting you in person and we will be planning another meeting later this year. We will also be sending round a summary of the discussions from the meeting and our Tight K Top Tips in the next E-bulletin.

MESSAGE ♥ OF THE MONTH

Mandatory implementation of the National Data Opt-Out (NDOO) commenced on 31 July 2022. If your research team is **not** part of the direct care team and you are accessing patient information using Section 251 support, you must check the patient's NDOO status. Please contact your R&D for local guidance on implementation.
