

## PROGRAMME SPECIFICATION

### 1. Overview

<b>Academic Year (student cohorts covered by specification)</b>	2024-25
<b>Programme Title</b>	Public Health for Eye Care
<b>Programme Director</b>	John Buchan
<b>Awarding Body</b>	University of London
<b>Teaching Institution</b>	London School of Hygiene & Tropical Medicine
<b>Faculty</b>	Infectious and Tropical Diseases
<b>Length of Programme (months)</b>	MSc - Full time = 12 months, Split Study = 24 months
<b>Entry Routes</b>	MSc
<b>Exit Routes</b>	MSc/PGDip/PGCert
<b>Award Titles</b>	MSc in Public Health for Eye Care (180 credits) Exit awards: PGDip in Public Health for Eye Care (120 credits) PGCert in Public Health for Eye Care (60 credits)
<b>Accreditation by Professional Statutory and Regulatory Body</b>	No accreditation.
<b>Relevant PGT <a href="#">QAA Benchmark Statement</a> and/or other external/internal reference points</b>	No relevant PGT QAA benchmark
<b>Level of programme within the Framework for Higher Education</b>	Masters (MSc) Level 7

<b>Qualifications (FHEQ)</b>	
<b>Total Credits</b>	<b>CATS:</b> 180 <b>ECTS:</b> 90
<b>HECoS Code</b>	101511:101317:100261 (1:1:1)
<b>Mode of Delivery</b>	This programme is based at LSHTM in London and delivered by predominantly face-to-face teaching modes.
<b>Mode and Period of Study</b>	Full time (12 months) or split study (24 months)
<b>Cohort Entry Points</b>	Annually in September
<b>Language of Study</b>	English
<b>Re-sit Policy</b>	<a href="https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-08a.pdf">https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-08a.pdf</a>
<b>Extenuating Circumstances Policy</b>	<a href="https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-07.pdf">https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-07.pdf</a>
<b>Programme Description</b>	This programme provides current or aspiring eye health care professionals or researchers with the knowledge and skills required to reduce blindness and visual disability in their populations by developing an evidence-based public health approach for the control and management of blinding eye diseases. It enables students to contribute effectively at a local, national and international level in research, training and service delivery.
<b>Date of Introduction of Programme (month/year)</b>	1995-96
<b>Date of production / revision of this programme specification (month/year)</b>	July 2023

## 2. Programme Aims & Learning Outcomes

<b>Educational aims of the programme</b>
The aim of the programme – consistent with the LSHTM’s mission to improve health worldwide – is to equip health professionals with the knowledge and skills to reduce blindness and visual disability by: developing a public health oriented approach to eye health, facilitating personal development, enabling individuals to contribute more fully to their societies' eye health; promoting a local, national and international network of health professionals, to improve vision and prevent blindness in the world.
<b>Programme Learning Outcomes</b>
By the end of the programme, students will be expected to achieve the following learning outcomes – drawing on material taught across different elements and assessed in a variety of ways.  (i) describe the basic epidemiology of the major blinding eye diseases; (ii) design and interpret studies to assess public health eye care needs using appropriate research methods; (iii) critically appraise evidence and select appropriate public health interventions for the major blinding eye diseases; (iv) design a comprehensive eye care programme for appropriate preventive and therapeutic measures for a community; (v) develop the skills necessary for resource mobilisation, management and evaluation of local comprehensive eye care programmes and integration into health systems.
<b>Teaching and Learning Strategy</b>
The programme will be taught through a variety of teaching methods including: lectures, quizzes, articles or research papers to read and critically appraise, small group seminars, practical exercises and groupwork with peers. Live teaching will be complemented with directed self-study along with individual tutorials and supervisory meetings particularly pertaining to the research project. All elements of the programme have specific <i>intended learning outcomes</i> , with content designed to help students achieve these outcomes. Students are expected to learn through both directed and self-directed study.
<b>Assessment Strategy</b>
The programme learning outcomes are assessed through individual module assessments. The assessments methods used may include essays, other written coursework, written exams, practical exams, groupwork, or presentations. A research project dissertation report will also be assessed. Such tasks are designed to assess, via the most appropriate method, whether learning objectives have been met.

### 3. Programme Structure and features, modules, credit assignment and award requirements:

Full-time Masters	Term 1	Term 2	Term 3	Total Credits
Compulsory Modules	6	3		105
Recommended Modules		1	1	30
Project			1	45

Module information is correct at the time of publication, but minor amendments may be made subject to approval as detailed in [Chapter 3 of the LSHTM Academic Manual](#). Optional (i.e. recommended non-compulsory) modules listed are indicative and may change from year to year.

<https://www.lshtm.ac.uk/study/courses/changes-courses>

Term	Slot	Module Code	Module Title	Module Type (compulsory or recommended)	Credits (CATS)
1	AB1	2001	Basic Epidemiology	Compulsory	10
1	AB1	1121	Basic Statistics for Public Health & Policy	Compulsory	10
1	AB1	3402	Foundations of Global Eye Health and Eye Care Programmes	Compulsory	10
1	AB1	1103	Introduction to Health Economics	Compulsory	10
1	AB1	3400	Epidemiological Methods Applied to Eye Diseases	Compulsory	10
1	AB1	3401	Skills for Field Research in Eye Care	Compulsory	10
2	C1	3403	Childhood Eye Disease and Ocular Infections	Compulsory	15

2	C2	3404	Non-Communicable Eye Disease	Compulsory	15
2	D1	3407	Implementing Eye Care: Skills and Resources	Compulsory	15
2	D2	3189	Ethics, Public Health & Human Rights	Recommended	15
2	D2	3461	Global Disability and Mental Health	Recommended	15
2	D2	1701	Reviewing the Literature	Recommended	15
3	E	1702	Proposal Development	Recommended	15
3	E	3198	Applying Public Health Principles	Recommended	15

### Contact Time

Student contact time refers to the tutor-mediated time allocated to teaching, provision of guidance and feedback to students. This time includes activities that take place in face-to-face contexts such as on-campus lectures, seminars, demonstrations, tutorials, supervised laboratory workshops, practical classes, project supervision and external fieldwork or visits, as well as where tutors are available for one-to-one discussions and interaction by email. Module contact time will be defined in the individual module specifications and provided to students at the start of their programme.

This definition is based on the one provided by the [Quality Assurance Agency for Higher Education \(QAA\) Explaining contact hours \(2011\)](#). Student contact time, together with time allocated for independent study and assessment, determines the total student study hours for a module or programme. Although there are separate hours allocated for each of these activities, they should always be clearly linked together to support effective learning.

The London School of Hygiene and Tropical Medicine (LSHTM) defines high quality contact time as structured, focused, purposeful and interactive.

### 4: Entry Requirements

Please refer to the programme's entry requirements [here](#).
