

# Examples of Destinations of LSHTM Graduates

The examples below are based on data from the 'Destinations of Leavers in Higher Education' survey. LSHTM alumni were contacted 6 months after graduation and asked about their employment status (more info at: [www.hesa.ac.uk](http://www.hesa.ac.uk)).

Data from the 2011/2, 2012/3, 2013/4 and 2014/5 surveys are combined below. Please note that not all students respond to the Destinations of Leavers in Higher Education survey and there are a disproportionate number of UK respondents due to collection bias.

## Disclaimer:

- The number of entries for each degree is in no way an indicator of general employability of each course – numbers of students who have studied individual courses vary significantly and this obviously affects final graduate numbers (and survey responses)
- For many degrees with significant numbers of graduate destination information, a representative sample of jobs / employers are shown.
- For data protection purposes we have excluded details to ensure that those surveyed cannot be identified. Please do not use the information provided as a way to contact School alumni.
